

CONDITIONED FOR THE ROAD AHEAD.

Service locations faster while keeping your cargo at the exact temperature required with our refrigerated units.

Thermal-efficient composite panels on the roof, walls and floor that maintain the inside temperature from 0 °F to 32 °F far more efficiently than conventional panels.

E-Track cargo constraints. Interior floor kazoo drains. Food grade interior walls. Aluminum extruded scuff liner.

Upgrade your safety features to meet the most rigorous requirements and keep your drivers safe.
